

# S-217 Electric FireMixer

## Savage Bros’ Legendary Electric-Powered Cooker-Mixer for Large Batch Production

### POWERFUL CANDY COOKER-MIXER FOR LARGE BATCH PRODUCTION

The S-217 Firemixer is the electric version of the traditional S-217 Gas FireMixer, tailored for large-scale production. Ideal for facilities limited to electric cookers, it offers the perfect solution for such production spaces.

The S-217 Electric FireMixer features a coiled electric heating element for rapid heating and a percentage timer control to regulate the batch cooking rate effectively.

### KEY FEATURES

- 1 Coiled electric heating element for a steady heat rate
- 2 Direct drive motor & sealed gearbox (no more belts to replace) that allows for variable speeds from 30 to 60 RPM
- 3 Spring-Loaded Scrapers that help prevent localized hot spots on the bowl surface even at high temperatures
- 4 Designed for use with Savage Spun Copper or Stainless Steel Kettle of up to 100 lbs (for non-foaming products) for high yield output
- 5 Hydraulic lift sytem for one-touch lifting of the mixing head
- 6 Touchscreen for accessing key process data
- 7 Convenient large push buttons and knobs for key functions

### PRODUCT SPECIFICATIONS

Dimensions	64.9" width (stove in away position) x 87.9" height x 54.5 depth
Body	Stainless steel frame
Voltage	208 - 240 VAC / 1 HP Drive Motor
Electrical	208-230V / 3-Phase / 9.8-12.0kW / 36-39 Amps
Capacity	45 lbs - 100 lbs (depending on the product)
Heat Range	180°F - 350°F / 82°C - 177°C
Product Temperature	70°F - 350°F / 21°C - 177°C
Weight of Unit	925 lbs
Warranty	1 year limited product warranty
